

# INNOVATION HACKATHON

# INNOVATION HACKATHON 2020

is a competition where students from various departments and regions

collaboratively work towards a common goal over a short period of time

to find **innovative solutions** to business cases.

# ACTORS

STUDENTS – 4 UNIVERSITIES

ENTERPRISES

CONFINDUSTRIA CHIETI PESCARA – Innovative  
Services Department

# WHAT?

Three business cases about innovative solutions introduced from three different companies

You have to find the solution in a day and a half

6 essential tips to be successful in an Hackathon

Communication – Responsibility –  
Problem solving – Teamwork –  
Leadership - Flexibility

WHERE?

ON  
“MICROSOFT  
TEAMS”

“TEAMS” is a REMOTE PLATFORM

9 teams.

Each **TEAM** will be composed by **6-7 students** from all departments involved.

Each student could work with his tablet or computer or mobile phone.

It is contemplated that there will be a continuous tutor's support and assistance.

# WHY?

This hackathon ended with a clear **English business presentation** of the solutions of business cases.

**Make it visual.** This makes it easier to explain your solution to the Evaluation Committee.

The best solution reaches  
**the Innovation Hackathon Awards 2020.**

Generally it consists in **an award** given out by Confindustria Chieti Pescara.

Hackathon is a great opportunity for personal and academic development, and will of course also look good on your resume and gives the opportunity to know enterprises and increase your business network.
